

CORNISH CONCRETE PRODUCTS

**STRUCTURAL
PRECAST SOLUTIONS**

Environment and Quality

CCP takes its environmental responsibilities very seriously and is accredited with the Environmental Management System ISO14001.

The company is also a founder signatory of the British Precast Sustainability Charter, and one of the first companies in the UK to be accredited with BES6001, the Code for Responsible Sourcing, achieving a “Very Good” status across its entire product range.

Furthermore, by choosing a precast concrete solution, the proliferation of waste and the risk of contamination are greatly reduced.

Customers can take advantage of the material’s inherent thermal mass which when used within the internal fabric of a building acts as a dampening mechanism for the external temperature and hence reduces energy demand from heating and cooling.

ABBEEY CRESCENT

Originally conceived as an insitu concrete frame, CCP delivered a hybrid precast concrete solution to this mixed use six storey development, complete with its own multi-storey car park.

CCP combined precast columns with steel delta beams, twin walls and crosswall construction to the core and lateral stability walls. Demidec and hollow core floors were also manufactured in conjunction with curved cantilever balcony sections to the front façade.

STRUCTURAL PRECAST SOLUTIONS

- / GROUND & EDGE BEAMS
- / RETAINING WALLS
- / CROSSWALL CONSTRUCTION
- / HYBRID PRECAST FRAMES
- / TWIN WALLS
- / STAIRCASES
- / LOADING BAYS
- / SEATING & TERRACING
- / COLUMNS
- / BASEMENTS
- / FLOORS
 - HOLLOW CORE FLOOR
 - DEMIDEC
 - BEAM & BLOCK

GCP

Founded in 1978, Cornish Concrete Products (CCP) is established as one of the UK's leading designers, manufacturers and installers of architectural and structural precast concrete solutions.

Delivering standard and bespoke solutions, CCP always welcomes the opportunity to develop precast solutions with customers, whether for aesthetic considerations or for finding the right structural outcome for a particular project.

CCP seeks to maintain the highest levels of quality in all aspects of its operations and these are reflected by its achievements as the winner of several Concrete Society Awards as well as its ISO9001 certification.

CCP is a founder member of the Architectural and Structural Precast Association (ASPA).
